FIRST RINSE

Alkaline Neutralizer & Floor Conditioner

DESCRIPTION: This is a special formulated product that is made up of a mild acid that will neutralize the residual alkalinity left on floors after stripping them. It has a reserved acidity that is released as required to neutralize residual alkalinity. A very small amount of wetting agent is added to reduce the surface tension of water thereby facilitating a more complete rinse. An odor control agent is added to leave a clean scent upon completion of rinse cycle.

ADVANTAGES:

- Eliminates streaking of floor finish
- Minimizes powdering
- Eliminates cause of most gloss reduction
- Deodorizes
- Controlled release of acidity
- Reduces surface tension of water, more complete rinsing
- With color indicator

RECOMMENDED USES: This product can be used on all resilient flooring, such as Asphalt Tile, Vinyl Asbestos Tile, Vinyl and linoleum flooring. Due to the acidity of the product, it is not recommended for terrazzo and marble flooring.

DIRECTIONS FOR USE:

On first rinse mix 1 cup (8 oz) of this product to 3 gallons of fresh water. Apply liberally to floor. When the rinse water in the pail turns a deep purple, it is time to replenish with fresh neutralizer rinse solution. Pick up by floor vacuum or mop. Apply fresh water only, to second and final rinse.

SPECIFICATIONS:

ph.....	2.6+/-0.3
Specific gravity.....	1.008+/-0.005
Refractive index.....	35
Weight/gallon.....	8.4 lbs/gal
Color.....	Light clear blue
Viscosity.....	Water thin
Powder residue after expansion.....	None
Flash Point.....	None
Fumes.....	None
Ionization.....	Controlled
