**FLO-OUT**  
**GRANULAR DRAIN OPENER**

**DESCRIPTION:** This powerful drain opener rapidly generates intense heat to attack and disintegrate most organic material. FLO-OUT not only attains boiling temperature quickly, but holds its temperature long enough to completely dissolve the blockage. Super action powered beads go directly to the point of stoppage, liquefying and clearing fats, grease, sludge, food residue, hair, coffee grounds and other matter. There is no dilution by standing water as with liquids. And it does this without harming pipes and septic tanks.

**FEATURES:**

- Unclogs drains fast through penetration, agitation and chemical reaction.
- Dissolves hair, grease, fats, sludge and other protein matter.
- Harmless to pipes and septic tanks.
- Contains no hazardous sulfuric acid (One of the most dangerous chemicals used today is the sulfuric acid drain opener - resulting in huge damage claims, high product liability insurance.) FLO-OUT is the perfect alternative.
- Active ingredients are more concentrated. You use less product to get the job done. As little as 1/4 the quantity of liquid products. Enormous savings in product cost, freight, storage space.
- Safer to use. NO skin irritating dust.
- Stops sewage odor and over flow.

**DIRECTIONS FOR USE:** Use only as directed on this label. Any other use may result in serious personal injury or property damage. With cap tightly closed, invert several times before use.

**FOR SMALL DRAINS:** A. Remove drain strainer, if possible. Remove any standing water before using this product. Water in the drain should be cool. B. Remove cap (see above instructions). Keep container away from face and exposed skin at all times. Carefully pour 1 oz. (2 level tablespoons) of product into the drain and securely close container. If water should boil out of the drain, add cup of COLD water. After 15 minutes, flush drain with COLD water. For better results, repeat application.

**FOR FLOOR DRAINS:** Follow same procedure above but increase dosage to 3 oz. and add 3 cups of COLD water.

**FOR PREVENTATIVE MAINTENANCE:** Use dosage as directed above periodically to keep drains running freely.

**SPECIFICATIONS:**

Color .....	Red and Silver Granular
Fragrance .....	Mild
pH .....	Caustic
Shelf Life .....	Indefinite in Closed Container
Grease Cutting Ability .....	Excellent
Soil Penetration .....	Excellent

**NOTICE:**

The information contained herein, is to the best of our knowledge and belief, accurate. Since the conditions of handling and use are beyond our control, we make no guarantee of results. We assume no liability for damages or penalties resulting from our suggestions or recommendations, nor are these to be taken as a license to operate under, or recommendations to infringe, any patent.

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN**  
**DO NOT TAKE INTERNALLY**  
**PROTECT FROM FREEZING**
