RINSE FREE STRIPPER

PRODUCT DESCRIPTION: This product is the newest development in a labor saving stripper that requires no machine scrubbing, rinsing, or neutralizing to properly prepare your resilient floors for re-coating with floor finish. It allows you to strip your floors and be ready to recoat in one-third to one-half the time of conventional strippers. The surfactants have been chosen for their low foaming characteristics which makes this the ideal product for wet vacuum pickup. A deodorant has been added to neutralize the odor of the chemicals at the recommended product use dilution.

RECOMMENDED USES: For the removal of metal crossed link polymer floor finishes, water emulsion floor wax, acrylic undercoater sealers from vinyl asbestos, vinyl, asphalt tiles, terrazzo, quarry tile and other types of floors. Especially formulated to remove floor finishes that have been burnished by normal spray buffing or buffing under High Speed Machines.

ADVANTAGES:

- Can be used in hot or cold water
- Works in soft or hard water
- Removes heavy build-up
- Contains deodorant
- Easily removes finishes burnished by high speed machines
- Will strip polymer or waxes
- Strips undercoater sealers
- Contains no soap
- Controlled foam for vacuum use
- Biodegradable

DIRECTIONS FOR USE:

Light Buildup: Mix 1 part of this product to 3 parts hot water, mop on liberally and have the floor uniformly wet (area size approximately 15' x 15' maximum). Let solution soak for 8 to 15 minutes. Mop or vacuum the emulsified finish. Thoroughly pick up all the solution. Let the floor dry completely, then apply the floor finish or sealer.

NOTICE:

The information contained herein, is to the best of our knowledge and belief, accurate. Since the conditions of handling and use are beyond our control, we make no guarantee of results. We assume no liability for damages or penalties resulting from our suggestions or recommendations, nor are these to be taken as a license to operate under, or recommendations to infringe, any patent.

RINSE FREE STRIPPER

Heavy Buildup: Mix 1 to 1 and proceed as above. This solution strength may be necessary where the floor finish has been burnished by high speed buffing. (NOTE: Areas larger than 15' x 15' should be recoated with clean water prior to wet vacuum pickup to re-emulsify dry spots.)

FIRST AID:

Eyes: Immediately flush eyes with plenty of water for 15 minutes. If irritation does not stop after washing, go to a doctor or hospital emergency room.

Internal: Drink large quantities of water or milk, then go to a doctor or hospital emergency room.

Skin: Wash with water. If irritation continues, see a doctor.

SPECIFICATIONS:

Color.....	Blue
Fragrance.....	Clean, fresh citrus
pH Concentrate.....	12.5
Percent Activity.....	53.0%
Specific Gravity.....	1.000±0.02(Westphal Balance)
Weight per gallon.....	8.33
Type of Surfactants.....	Biodegradable, controlled foam level
Type of Soaps.....	None
Solvents.....	Non-flammable
Abrasive.....	None
Stability.....	Excellent
Hard Water Compatibility.....	Excellent
Wax Emulsification.....	Superior
Refractive Index.....	34.5

CAUTION

**KEEP OUT OF REACH OF CHILDREN
DO NOT TAKE INTERNALLY
PROTECT FROM FREEZING**
