STAIN A WAY

CHLORINATED MACHINE DISHWASHING COMPOUND

DESCRIPTION: STAIN A WAY is a powdered, granular, dishwashing machine compound designed for the purpose of washing china, glasses, and plastic service.

PHYSICAL PROPERTIES: STAIN A WAY contains a blend of high potency alkaline compounds and wetting agents plus a chlorine bearing ingredient which is designed for stain removal on plastic dishes and service.

SUGGESTED USES: STAIN A WAY is suggested to be used in all commercial mechanical dishwashing machines for the purpose of washing glasses, dishes, cups and plastic service.

METHOD OF MIX AND APPLICATION: STAIN A WAY should be used at a minimum of three ounces and a maximum of six ounces for each twenty gallons of water in the mechanical dishwashing machine tank.

It is recommended that the variation of concentration be diluted depending upon the water grain hardness in each operation.

SAFETY: STAIN A WAY is non-toxic in use dilutions and non-explosive, but does contain ingredients of high alkalinity, therefore, precautions should be taken to prevent direct contact with the skin or eyes. Should the product be splashed on the skin, wash the area with a large volume of water.

Should the product be splashed in the eyes, wash the eyes with a volume of water for at least 15 minutes and consult a physician immediately.

SPECIFICATIONS:

Color	White Granular
Fragrance	Chlorine
Type of surfactants	Non-ionic
Toxicity	Skin & eye Irritant
pH (1% solution)	12.4
Active Ingredients	100%
Hard Water Compatibility	Excellent
Shelf Life	Indefinite
Grease Cutting Ability	Excellent
Soil Penetration	Excellent
